## POLYETHYLENE VERTICAL TANKS

These tanks are made from **FDA approved** High Density Linear Polyethylene.  
 The color is Natural (milky white). **Add 10% to the price shown for Colors.**  
 Tanks are molded to a 1.9 Specific Gravity Rating unless otherwise noted.  
 Detailed drawings are available at [www.plasticstoragetanks.com](http://www.plasticstoragetanks.com)

# Bailiff Enterprises, Inc. USA

## Terms & Conditions

### Warranty

Bailiff Enterprises, Inc. offers a limited three year **warranty** from the date of manufacture on all our tanks. Should a defect in workmanship or material appear under normal use, service and maintenance **within the warranty period** Bailiff Enterprises, Inc. will, at it's option, either supply a new, equivalent tank in replacement thereof or repair the original tank or refund a prorated portion of the purchase price. Bailiff Enterprises liability is limited to the tank itself and specifically excludes the cost of installation and/or removal or consequential damages. Please contact your chemical supplier for chemical resistance information. Operating beyond the temperature limits of a tank; operating at other than atmospheric pressure; or storing material that is chemically unsuitable for a tank are some specific examples of actions that void our warranty.

Bailiff Enterprises, Inc makes no warranty other than that stated above and hereby disclaims all other warranties, expressed or implied, including but not limited to any implied warranty of merchantability or fitness for a particular purpose.

### Freight Claims

The person who signs the bill of lading when tanks are delivered **MUST** note any visible damage **on the bill of lading**. If there is no indication of damage, trucking companies will deny claims for damage in transit.

We at Bailiff Enterprises, Inc. take great care to ship tanks that are in excellent condition. Once they leave our site, damage can occur while the tanks are in the hands of the trucking company. If there is no notation of damage on the signed bill of lading, trucking companies deny claims of damage. It is their right to do so.

It is important that whoever receives the tanks be trained to look for damage and note it on the bill of lading. Even if there is no designated space for such a notation, it must be written on the bill of lading.

We value our customers and will assist in pursuing valid claims for damage to tanks when they are in transit. That being said, we cannot pursue such claims if the receiver of the tanks does not note damage.

### Sales Tax, Prices and Currency

All domestic applicable state and local taxes will be added to your invoice unless a certificate of sales tax exemption is provided in advance to Bailiff Enterprises, Inc.

Prices are in U.S. Dollars. Prices are subject to change without notice. Prices effective on the date of shipment are those under which the order will be billed. Prices subject to change without notice.

### Return Goods

**All returns are subject to a restocking charge of 15% and must have a prior return authorization from Bailiff Enterprises, Inc. Returns without authorization will not be accepted.**

Prices subject to change without notice.
